1. Introduction

One of the goals of the ASEAN Socio-Cultural Community (ASCC) Blueprint is to forge solidarity and unity in the ASEAN region by building a common identity that supports greater understanding and mutual respect among the peoples of the ASEAN region. The ASCC Blueprint has effectively guided the culture sector’s initiatives, which “are deemed highly relevant in achieving the strategic objective of creating a sense of belonging, of consolidating unity in diversity, and of deepening mutual understanding among the ASEAN Member States”\(^1\). Through the targets set by the ASCC Blueprint, the culture sector has likewise pushed for the conservation, preservation and safeguarding of the ASEAN community’s cultural heritage.

Taking on the gains of the ASCC Blueprint, the ASCC’s post-2015 vision is to build an ASEAN Socio-Cultural Community that engages and benefits the people and is inclusive, sustainable, resilient and dynamic. In keeping with this vision, culture plays a very important role in achieving dynamism in the ASEAN Community where it aims for a dynamic and harmonious community that is aware and proud of its identity, culture, and heritage with the strengthened ability to innovate and proactively contribute to the global community.

In addition to the goals of the ASCC vision for 2025, the ASEAN Strategic Plan for Culture 2016-2025 will also be hinged on a number of key documents. Primarily, it will be framed by the ASCC Attendant Document’s strategic measures on (a) promoting an open and adaptive ASEAN, (b) strengthening creativity and innovation, and (c) engendering a culture of entrepreneurship in ASEAN. The Strategic Plan will also adhere to the Hue Declaration on Culture for ASEAN Community’s Sustainable Development, which was adopted in the 6th ASEAN Ministers Responsible for Culture and Arts (AMCA) Meeting on 19 April 2014, as well as the Declaration on ASEAN Unity in Cultural Diversity (Bali, 2011) and the ASEAN Declaration on Cultural Heritage (Bangkok, 2000).

Taking note of the significant strides in pursuit of broadening awareness of the cultures, histories, and values of the ASEAN Community in the past years, there is still much to be done to deepen the sense of ASEAN identity among its peoples. There should be more efforts on instilling a profound understanding of the shared past of the communities in ASEAN, one which is defined by diasporas, trade, and migration. Because of such fluidity, ASEAN peoples have common cultural threads woven into each other’s cultures, and the appreciation of which should be further deepened. Based upon this shared past, the ASEAN Community should also be able to chart a shared future in terms of safeguarding its tangible and intangible cultural heritage and promoting mutual respect and understanding2.

2. Objectives

The overarching objective of the Strategic Plan for Culture 2016-2025 is to deepen an ASEAN mindset and facilitate intercultural dialogue among the peoples of ASEAN through the engagement of various stakeholders in raising awareness on, and appreciation for, the histories, cultures, arts, traditions and values of the ASEAN region. In addition, the Strategic Plan aims to engender among its peoples a sense of ownership of the preservation and conservation of ASEAN’s cultural heritage and promote the use of culture for creativity, innovation and livelihood-creation. Through the Strategic Plan for Culture, culture will also be brought to the fore of building an ASEAN community that is a global partner in the pursuit of inclusive and sustainable development.
